D1: JP 2002-502588 A (Affimetrix inc.)2002.01.29
& WO 99/39817 A
& EP 1051245 A

Claims1-15

D1 discloses a method/system for producing a nucleotide probe carrier, in which each step in the production procedure is quality-checked (see claims, [0042] - [0046]).

Although D1 does not mention a quality assurance method, it is apparent for a skilled person in this art that the method works also for quality assurance, because the reason why each step is checked in the method is obviously for quality assurance, in order to eliminate defective products.

Therefore Claims1-15 lack inventive step.
